Experience

IgknighTech

Software Engineer

Onsite - Lahore

May 2026 - Present

Software Engineering: Architect and develop high-impact web applications using a versatile tech stack, including MERN (MongoDB, Express, React, Node.js), Go (Golang), and Ruby on Rails.

End-to-End Delivery: Transition seamlessly between front-end and back-end responsibilities, utilizing modern frameworks to deliver clean, efficient, and maintainable code that directly meets complex client requirements.

Collaborative Growth: Work closely with the engineering team under the mentorship of our Team Lead: Jawad, leveraging his technical oversight to streamline development workflows and resolve complex engineering challenges.

Heights Studio

Full Stack Developer

Onsite - Lahore

Dec 2025 – May 2026

- Working as a Full Stack Developer across multiple technologies, delivering end-to-end web solutions.
- Responsible for backend development, frontend implementation, API integration, and database management across diverse projects.
- Managing deployment processes, ensuring scalable and production-ready applications.

Experts Cloud

Associate Software Engineer

Onsite - Lahore

July 2024 – Dec 2025

- Developed and maintained **full-stack features** using **React, Node.js/AdonisJS, MongoDB, and MySQL**, contributing to **4+ production projects** with reusable and scalable code.
- Built and optimized **RESTful APIs**, improved **MongoDB queries and backend logic**, and reduced response times across key application modules.
- Integrated **AWS services (S3, EC2, Lambda, Cognito)**, **Firebase**, **OAuth authentication**, and **OpenAI LLM APIs**, while managing deployments using **Docker, Vercel**, and **Netlify**.
- Collaborated in **Agile sprints** with cross-functional teams, delivering **10+ features on time**, maintaining clean code standards, and using **GitHub for version control and code reviews**.

Vision Plus

ASP.NETDeveloper:-

Onsite - Lahore

Aug 2023 - Oct 2023

- Developed and customized **ERP solutions using ASP.NETMVC**, contributing to scalable, enterprise-level web applications.
- Implemented and maintained **backend logic, database integrations, and frontend features** based on client requirements.
- Collaborated with cross-functional teams to deliver **reliable, maintainable, and client-specific solutions** within deadlines.

ASP.NETInternship:-

Jun 2022 - Sep 2022

- Assisted in developing and maintaining **ASP.NETweb applications**, gaining strong fundamentals in **frontend and backend integration**.
- Worked on **WordPress website development and customization**, delivering client-specific UI and functionality updates.
- Strengthened understanding of **full-stack development workflows**, version control, and collaborative development practices.

Superior Tech Solutions

Wordpress Developer Intern

Onsite - Lahore

Mar 2022 - May 2022

- Customized 6+ WordPress themes and optimized plugin usage, resulting in **20% faster page load times** and improved SEO scores.
- Assisted in deploying and migrating multiple WordPress websites with **zero downtime and data loss**.
- Integrated dynamic content and user-friendly contact forms using shortcodes and custom post types.

Education

<u>Bahria University</u>	Bachelor's Degree
Computer Science	2020 - 2024
<u>The Crescent College</u>	FSc
Pre-Engineering	2018 - 2020
<u>Crescent Model Higher Secondary School</u>	Primary - Matric
Sciences	2008 – 2018

Skills

Frontend

ReactJS, JavaScript, Tailwind CSS, Bootstrap, Elementor / WPBakery (WordPress page builders), TypeScript, MUI

Backend

AdonisJS (v6), Node.js, Express.js, C#, TypeScript, Docker, Java (basic)

Database

MongoDB, MySQL, MS SQL Server, Firebase Realtime DB

Cloud / AWS Services

AWS Lambda, S3, Cognito, AWS Serverless, AWS AI Services (completed AWS Practitioner AI course), EC2, IAM, Deployment: (Vercel and Netlify), Deployment

Technology

MERN Stack, ASP.NET

Tools

Wordpress, Jira, Postman, Git & GitHub, VS Code, Docker

Certifications

HTML, CSS, and Javascript for Web Developers	July 2023
Coursera	
Wordpress Internship	May 2022
Superior Tech Solutions	
Front-End Web Development with React	March 2022
Coursera	
Wordpress Mastery for Beginners - Fastest Way To Learn WP	Sept 2021
Udemy

Publications

Extraction of User-Defined Information from PDF	January 2025
IEEE	
• First author and lead contributor, responsible for project design, core implementation, and driving the research and publication process. • Addressed the challenge of extracting user-specific and unstructured data from PDFs, which is difficult due to varying layouts and formats. • Proposed and implemented a web-based MERN solution that allows users to define custom data fields and accurately extract information from PDF documents. • Beneficial for organizations, researchers, and businesses needing efficient, automated data extraction from PDFs for reporting, analysis, and decision-making.
